Full management reporting, real time balances & historical information

CMS Recommendations

The CMS solution provides an online web portal for managing your cash holdings. Recommendations to order or process collections will be provided on a daily basis.

The forecasts are produced by experienced CMS mathematicians using specialist models that have been developed in conjunction with the directive your Head Office has provided.

Sales are forecasted for the current ordering period which CMS would define from the time of the latest balance up to the end of the day of the next delivery.

The main factors that are accounted for are;

- Recent sales patterns
- Historic seasonal trends
- National holidays (incl. vault closures that may extend the order period)
- Foreign exchange rates
- Calendar events – input by both the stores and CMS

CMS would advise that recommendations should only be altered in the case of large unexpected sales and/or customer orders. Please note that these will be retrospectively analysed by your Head Office and FX Operations team to ensure that the functionality is being used appropriately.

Daily Process

- ① Login
- ② Review customer orders and upcoming events
- ③ Check the order screen to review recommendations
- ④ Place order and/or collection

Home Page

The screenshot shows the Home Page of the CASH MANAGEMENT SOLUTIONS system. At the top left is the logo for CASH MANAGEMENT SOLUTIONS. At the top right is the logo for DOLLAR FINANCIAL CORP. Below the logos is a green navigation bar with links: Home, Recommendation, Reports, Switch Branch, Change Password, and Logout. The main content area is divided into three sections: Events Calendar, Recent Orders, and Recent Issues. The Events Calendar shows a grid of dates from Mon 13 to Sun 3, with a 'Special Event' highlighted on Wed 15. The Recent Orders section contains a table with columns for Order ID, Order Date, Delivery Date, Amount, Product, Status, and Issues. The Recent Issues section contains a table with columns for Issue ID, Type, and Date Recorded. Callouts are present: 'Navigation bar' points to the green bar; 'Calendar events will be considered for any recommendations.' points to the 'Special Event' in the calendar; 'Breakdown of recent orders and collections.' points to the 'Recent Orders' table; 'Any recent raised issues will be listed here and can be viewed for further details by clicking on the Issue ID.' points to the 'Recent Issues' table; and 'You can open historic summaries by clicking on the reference numbers.' points to the 'more...' link in the 'Recent Orders' table.

Calendar events will be considered for any recommendations.

Breakdown of recent orders and collections.

You can open historic summaries by clicking on the reference numbers.

Should there be any issue with the delivery or collection, you can click the "Raise Issue" and CMS will escalate appropriately.

Any recent raised issues will be listed here and can be viewed for further details by clicking on the Issue ID.

Raising an Issue

You can report any delivery or collection issues by clicking the “Raise Issue” button next to the corresponding order/collection on the Home Page.

You will then be presented with the following screen.

Please fill in any relevant details and CMS will escalate where appropriate. These may include, but are not limited to, late or failed services, delivery discrepancies, etc.

The latest balance will be automatically populated via a data feed from your Head Office.

Please note, any typical demand and change in balance will have been accounted for in the recommendation.

After clicking on “Order” > “Note Recommendation” you will be presented with a screen that displays your latest balance and the next possible delivery date.

After clicking “Next” you will be presented with today’s recommendation.

Although there will be no recommendations for Coin, placing an order is done following the same process via the “Order” > “Coin Recommendation”.

Note, coin ordering is for UK mainland stores only.

Placing an Order

This image highlights how Order recommendations will be displayed. In this case, an order recommendation of 8,000 is present.

If a recommendation is present, the System will provide predetermined order amounts by denomination. You can change these, if required. Please note, these amounts must be in multiples (or bundles) of the minimum amount.

Note, you can place both an order and a collection together. For example, you may have some denominations that you cannot use.

Once your order and/or collection is complete, click “Next” and you will be presented with a page to check and confirm. You will have the ability to amend this order up until the time it is submitted to the supplier.
